

2nd ITF Statistical Meeting 1-2 April 2015- PARIS

3.3 – Investment in transport infrastructure
2013 data collection

Current situation

- Swap to the OECD corporate database (OECD.DotStat)
- Modifications to the questionnaire
- Modifications of the data processing procedures
- Modification to the metadata management

We sent out:

- One questionnaire (Inv + Maint)
 - List of deflators used
 - Complementary information (definitions and scope)
- 

Response rate to the investment questionnaire

Send out 13 February / dead line 6 March – 2013 data

- 32 countries provided an answer
- Only 15 provided complete maintenance data
- And 8 provided no maintenance or only road
- Some major countries do not provide maintenance at all

Still would like to underline perfect submissions from:

France, Sweden, Slovenia, Turkey, Croatia, Serbia , USA

Response rate to additional request

List of deflators

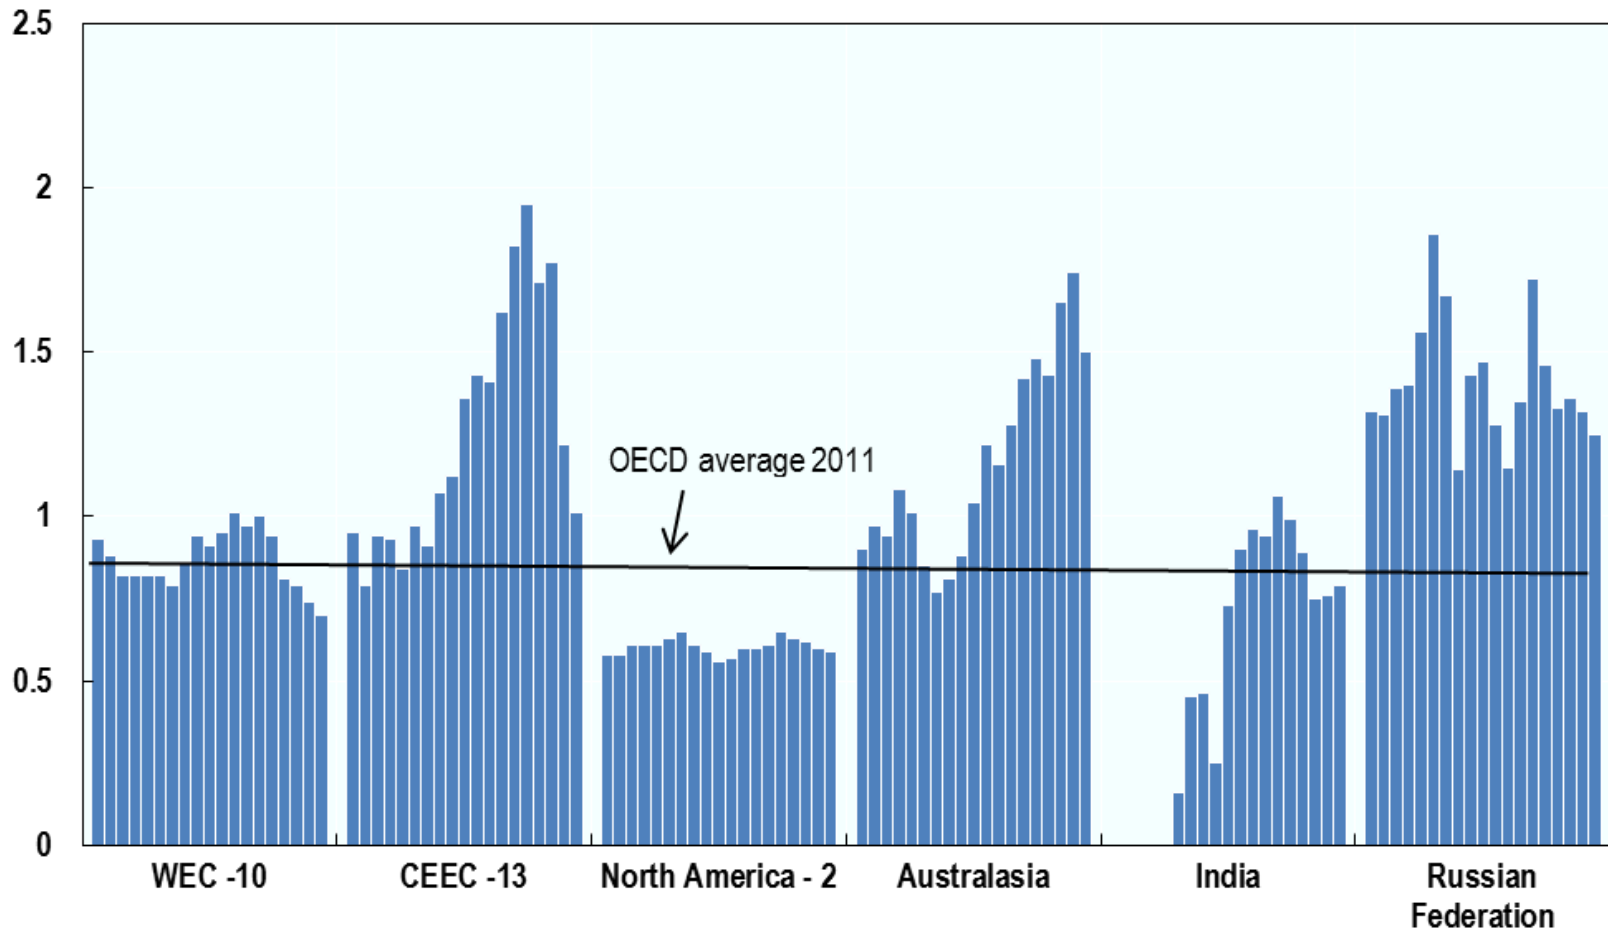

- 13 countries provided an answer
- Some still recommend to use GDP deflator

Complementary information

- 9 countries provided an answer
- Most answers not complete

Investment in Inland Transport Infrastructure by region 1995-2013 as a percentage of GDP

Next steps

Send reminders to countries

- Improve the picture of the latest investment trends.
- Improve the list of deflators used
- Gather more complementary information

Disseminate results

- Update OECD Corporate databases (statworks and Metastore)
- Produce a statistics brief on latest trends before the summer.

Improve definition and coverage

Seems like this will be a long process and we will keep you informed

Thank you
