

5th ITF TRANSPORT STATISTICS MEETING

Chaired by Ms. Patricia HU
Director of the US Bureau of Transportation Statistics

25th-26th April 2018

The meeting will be held in Paris
OECD, 2 rue André-Pascal
75016 Paris
Room CC20
Starting at 10:00 on 25th April
Ending at 13:00 on 26th April

Objective

The International Transport Forum has been dedicating resources to improve the quality and the coverage of transport statistics. The aim of the meeting is to better understand users' needs and improve transport statistics to better assess the role of the transport sector in the economy. The meeting is also an opportunity to maintain and develop regular contacts with a wide range of transport actors to share views, experiences and to join forces to develop efficiently international transport statistics.

Expected outcomes

The goal of the meeting is to suggest common solutions to a series of issues relevant to transport statistics. The meeting will contribute to the development of a more consistent and efficient international framework for transport statistics, by promoting exchange between transport experts from different countries and suggesting solutions.

Organisation and contact

The meeting will take place in Paris and will last for a day and a half. The meeting language is English. Please note that due to technical reasons the venue of the meeting has been changed and will not be at the OECD premises anymore, but nearby. The new venue address will be communicated later.

For more information, please contact Mario BARRETO (Mario.barreto@itf-oecd.org)

PROGRAMME

1. Welcome and objectives of the meeting

Presentation of main objectives and expected outcomes.

2. Approval of the minutes from the last meeting

<https://www.itf-oecd.org/sites/default/files/docs/summary-record-4th-annual-meeting-international-transport-statistics-2017.pdf>

3. Transport infrastructure investment and maintenance

3.1- ITF questionnaire on transport infrastructure spending

*Presentation of preliminary results from the latest survey.
Results from the new variable on "Transport Infrastructure Capital Stock".*

3.2- ITF project to collect data on infrastructure costs

Update on the project development, description of where we are and next steps.

3.3 -Collecting data for Public Private Partnerships (PPP)

Country examples. Description of existing principles and methodologies.

4. Transport Satellite Accounts (TrSA)

- Report on the TrSA workshop (held the day before)

Presentation of the decisions of the previous day meeting.

5. Safety for all transport modes

This year the ITF Summit theme is "transport safety and security"

5.1- Presentation on the ITF Leipzig summit "transport safety and security"

5.2- Introduction to IRTAD activities

*****Lunch Break from 12:05 until 13:30*****

5.3- Data requests for the IRTAD program 'Safer cities streets'

Main needs for exposure data

5.4- Safety data for other modes

Description of existing experiences in other modes of transport

6. Big Data

6.1- Presentation of Automatic Identification System (AIS) and

Long Range Identification and Tracking (LRIT)

Country examples to collect sea vessel movements

Participants are invited to describe other uses of AIS

(CAN-Vessel Traffic in the Gulf of St-Lawrence,)

6.2- GIS information

Countries' presentation of different tools, how they are used, what kind of analysis they produce. (CAN-Geospatial Platform and Transportation, GBR, EIB)

6.3- Other suggestions

Presentation of countries other experiences/suggestions (IRL)

6.4- Main findings from the ITF Working Group on Big Data

*****coffee Break from 15:40 until 16:00*****

7. Innovation in transport measurement

- Country experiences in transport measurement
Tour de table for countries willing to share their innovative projects. (SVN- app to collect data on passenger mobility, TUR – calculating V-km from odometer readings, CAN-New Performance Indicators, SWE-Solutions for future passenger mobility surveys)

8. Discussion

- Open discussion

*****End of the first day 17:00*****

*****Start of 2nd day 09:45*****

9. Visualisation methods

- Lightning talks on visualisation
Various presentations of 4-5 minutes (IRL, CAN-Centre on Transportation Data (CCTD) Data Portal, GBR, ICAO, UNECE)

10. Origin/destination transport surveys

- Description of existing methodologies
(countries presentations: CAN-transport modal information and links to new technology, SWE-Swedish commodity flow survey (CFS 2016) - Methods and general results, MLT)

11. Glossary for transport statistics

- The 5th Edition of the Glossary for Transport Statistics
Update on the work carried out, and on-going plans to produce the new edition of the Glossary. Presentation on the project and next steps.

*****coffee Break from 10:50 until 11:10*****

12. ITF projects

- 12.1- ITF data collections
Status of recent data collections
- 12.2- ITF Transport Outlook 2019
Introduction to the 2019 edition of the ITF flagship publication and to the intermediate 2018 edition
- 12.3- Transport indicators available in OECD.Stat
Update on the latest available data and future developments

13. International co-operation

- Eurostat
- UNECE
- DGMove
- UIC

14. Conclusion and next steps

End of the meeting 13:00
