

Transport Satellite Accounts (TrSA)

Background

- ❑ Several countries have expressed interest to learn about benefits, methods, approaches to build TrSA
- ❑ Only few countries produce on a regular basis (United States, France)
- ❑ Some one-off or irregular exercises (Italy, Belgium, ICAO)
- ❑ Methods and approaches differ significantly

France – United States

- ❑ Half day workshop to compare methods and discuss common approaches
 - ❑ France (expenditure – income), USA (supply – use)
 - ❑ Common agreement on the approach
 - ❑ Conceptual framework (supply and use, breakdown of activities, own account transport, household supply and use, physical data etc)
 - ❑ Understanding what can be done with TrSA
 - ❑ What is useful / practical
 - ❑ How long will it take and at what cost
 - ❑ Workshop Fall 2017
-
