Subject: Quality Charter compliance under the ECMT Multilateral Quota

Country: GEORGIA

National Authority: Ministry of Economy and Sustainable Development /Land Transport Agency

Dear Secretary General,

We herewith declare that Georgia is compliant with the requirements of the Quality Charter for international road haulage operations undertaken under the ECMT Multilateral Quota.

Compliance with the Quality Charter is usually achieved through European Regulations and implementation of appropriate European Union Directives. The key international legal instruments are Regulation 1071/2009, Regulation 561/2006, Regulation 3821/85, Directive 2002/15, Directive 2006/22/EC and Directive 2003/59.

The provisions of the EU are supported by domestic legislation based on the "Agreement between the European Union and the European Atomic Energy Community and their Member States, of the one part, and Georgia, of the other part" of 16 June 2014.

In support of these laws, the Land Transport Agency under the Ministry of Economy and Sustainable Development Georgia manages the ECMT permit allocations and ensures that undertakings seeking permits meet all the requirements of the Quality Charter prior to the issue of permits.

The ECMT permits are only issued to an operator having a Licence for the international carriage of goods by road for hire or reward.

The Report submitted with this statement of compliance details the laws and/or administrative processes adhered to ensure that the provisions of the Charter in the Country are met by Georgian holders of the ECMT licences.

Enclosure: Report on Implementation of Quality Charter for International Road Haulage Operations under the ECMT Multilateral Quota by Georgia on 38 pages.

Yours sincerely,

Deputy Minister
