Subject: Missing or faded stamps on the cover of some ECMT logbooks cover 2024.

Dear Mr. Rasomavicius, Dear ECMT Members

ANALTIR, would like to inform you regarding an issue we are encountering with the cover of some ECMT logbooks.

The official stamp of ANALTIR in some ECMT logbook appears to fade over time.

This was spotted by the Italian Local Authorities of Trento in one of the ECMT logbook.

To resolve this issue ANALTIR is instructing the transport companies to verify them.

In order to correct this problem we would need a tolerance time, because the vehicles are traveling abroad.

To avoid any penalty by the enforcement authorities, we ask Member States and their enforcement authorities that the logbooks where the stamps doesn't appear as they should, to be considered valid with their signature and other information on the cover of logbooks, until we fix this issue.

On this occasion, please accept the assurances of my highest consideration, I remain

PRESIDENT
